

Patent applied

Lightweight design and ergonomic handle reduces operator fatigue

LED light illuminates seal area

Green/red LED battery light indicates charge level

Maximum portability... no cord, no hose

18 volt lithium-ion battery for long-lasting operation

240 single notches per charge

One-button operation

Strap detection system eliminates accidental cycling

WORLD'S MOST POWERFUL BATTERY-DRIVEN STEEL STRAPPING TOOLS

Signode GENY 114 S

Battery Powered Sealer for Steel Strapping

Break free from the lack of portability and high weight associated with pneumatic tools. Our latest innovations, the GENY 114 S steel strap sealer and tensioner, provide the low weight and portability that operators need but can't get with pneumatic tools. Plus they deliver maximum power and performance without the air generation costs and inconsistencies of pneumatically driven tools.

The GENY 114 S tools' lightweight, durable design make them easy to handle and operate. With one-button operation and performance enhancing features not found on pneumatic tools, they vastly improve productivity for the application of steel strapping in heavy-duty hand tool applications.

Sealer Specifications

Strapping:	Magnus® or Apex Plus™ steel strapping
Strapping size:	1-1/4"x 0.025" to 0.031" (32 mm x 0.64 mm to 0.79 mm)
Joint type:	Single reverse notch
Seal type:	114 P, 114 OF
Weight:	3.4 kg

120 cycles per charge

WORLD'S MOST POWERFUL BATTERY-DRIVEN STEEL STRAPPING TOOLS

Signode GENY 114 T

Battery Powered Tensioner for Steel Strapping

Break free from the lack of portability and high weight associated with pneumatic tools. Our latest innovations, the GENY 114 T steel strap sealer and tensioner, provide the low weight and portability that operators need but can't get with pneumatic tools. Plus they deliver maximum power and performance without the air generation costs and inconsistencies of pneumatically driven tools.

The GENY 114 T tools' lightweight, durable design make them easy to handle and operate. With one-button operation and performance enhancing features not found on pneumatic tools, they vastly improve productivity for the application of steel strapping in heavy-duty hand tool applications.

Tensioner Specifications

Strapping:	Magnus® or Apex Plus™ steel strapping
Strapping size:	3/4" – 1-1/4" x 0.025" to 0.031" (19mm to 32 mm x 0.64 mm to 0.79 mm)
Tension:	Adjustable from 3,600 to 6,670 N
Weight:	3.8 kg
