Specialty Tapes

Innovative tape solutions

Range

Signode offers specialty tapes meeting sealing needs of different applications.

Specialty tapes include

- Repulpable Splicing Tape
- Floor Marking Tapes
- HDPE Tapes
- Filament Tapes

Specialty Tapes

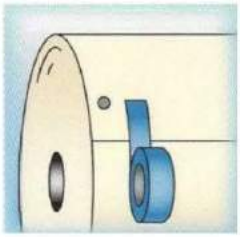
Innovative tape solutions

Splicing Tapes – Repulpable and Non repulpable

The splicing tape consists of a tissue paper carrier coated on both sides with repulpable or non repulpable adhesive and a white silicone coated paper liner. World's leading paper mills are using these solutions for critical requirements.

Advantages

- Effective solutions for error free splicing in the most demanding machine conditions
- Single or double sided tapes in different widths are available for excellent repulpability



Specifications

Product	Grade	Width (mm)	Meters/ Roll
Splicing tape(single sided/double sided)	Repulpable	12 - 75	50
Double sided tissue tape	Non repulpable	12 - 75	50
Double sided polyester tape	Non repulpable	12 - 75	50

Specialty Tapes

Innovative tape solutions

HDPE Tapes

As the name suggests, these tapes are manufactured from woven HDPE fabric with a liner.

Advantages

- High performance , economical packaging tapes
- Available in self wound and with release liner
- Available in yellow, blue, black and white colours

Specifications

Width (mm)	Meters/Roll	Rolls/CTN
24	50	96
48	50	48
72	50	30

Applications

- Sealing corrosion resistant bags / VCI fabrics
- Sealing of HDPE bags in courier Industry
- Reinforcing flexible intermediate bulk containers (FIBC)

Benefits

- Non hand tearing in both the directions
- Excellent water resistance
- Spot reinforcement possible

Specialty Tapes

Innovative tape solutions

Filament tapes

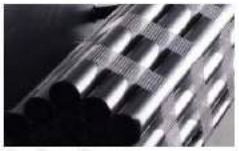
Filament tapes are high performance single sided packaging tapes of filmic carrier reinforced with glass mesh and high grab adhesion.

Advantages

- Higher strength
- Tacky adhesive suitable for many substrate
- Heavy duty packaging
- Non tearing in both directions

Applications

- Packing of metal coils
- Sealing courier bags
- Reinforcing fabrics/leather before stitching



Pipe bundling

Packing of export cartons

Specifications

Width (mm)	Meters/Roll	Rolls/CTN
24	50	96
48	50	48
72	50	30

Packing and stacking of metal coils

Benefits

- Non hand tearing in both the directions
- Cuts in the tapes do not propagate, hence sealing is secure
- High tensile strength in both the directions
- Tamper evident packaging possible
- Water proof

Specialty Tapes

Innovative tape solutions

Floor Marking Tapes

Floor Marking Tapes are made of thick coloured PVC for better visibility

Advantage:

- Available in all colors as per OSHA & GMP Standards
- Does not leave marks on the substrate
- Washable

Applications

Floor marking for aisles , un safe areas, moving parts on machine
Hazard demarcation

Specifications

Colour	Width (mm)	Meters/ Roll
Yellow/White/Red/Blue/Zebra/Green	24/48/72	33

Benefits

- Quick & easy application and removal
- Improved aesthetics
- Economical
- Non dusting, hygienic
